SUMMARY

Computer Science and Engineering graduate (2026) with hands-on experience developing applications using Java, MySQL, HTML, and CSS. Built two end-to-end systems, a cryptocurrency portfolio manager and a university ERP portal, using Spring Boot and relational database design. Eager to apply strong engineering fundamentals in a software development role.

EDUCATION

Kalasalingam Academy of Research and Education, Tamil Nadu **2022 -- 2026**
Bachelor of Technology in Computer Science and Engineering CGPA: 8.3/10.0

TECHNICAL SKILLS

Languages	Java, SQL, HTML, CSS
Tools	Git, Eclipse, VS Code
Soft Skills	Problem Solving, Communication, Teamwork

INTERNSHIP EXPERIENCE

Infosys Springboard Internship 6.0 **Nov 2025 -- Jan 2026**
Cryptocurrency Portfolio Tracker with Risk and Scam Detection [Certificate]

- Built a system where users can track all their cryptocurrency investments in one place and see live price updates.
- Developed login, portfolio management, and transaction history features to allow users to manage their cryptocurrency investments.
- Connected to outside services to pull live crypto prices and show real-time market data to users.
- Added a scam detection feature that checks risky cryptocurrencies and sends alerts to users before they invest.
- Built a CSV download option so users can export their transaction history for their own records.
- **Tech Stack:** Java, Spring Boot, MySQL, HTML, CSS

PROJECTS

University ERP Portal GitHub

- Built a web portal where students and admins can handle admissions, fee payments, hostel bookings, and notices from one place.
- Made two separate login systems, one for students and one for admins, so each user only sees what they are allowed to access.
- Designed the full database in MySQL to store student details, course info, fee records, and hostel data in an organised way.
- Built all the web pages using HTML and CSS so the portal works well on both desktop and mobile screens.
- Added features like profile management, academic records viewing, and an approval workflow for admin actions.
- **Tech Stack:** Java, MySQL, HTML, CSS

CERTIFICATIONS

- **Introduction to Java** -- Coursera (LearnQuest), Jun 2025 [View Certificate]
- **SQL Fundamentals** -- IBM SkillsBuild, Jul 2025 [View Certificate]
- **Introduction to Git and GitHub** -- Coursera (Google), Jul 2025 [View Certificate]
